Chesed activities

There are many great *chesed* programs at ICJA all planned by Rabbi Fox and Mrs Zeffren. They are always a blast and a combination of *chesed* and fun. The *chesed* day consists of many different *chesed* activities such as packing boxes or organizing clothes at a donation center. The *chesed* day's at ICJA are a great way to have fun while doing *chesed* and the best part is that after the *chesed* day there is a fun activity planned for everyone: mini-golfing, ice skating or arcades. The school is able to provide these amazing activities because families have decided to sponsor them. These activities are a great way to have fun with friends while doing *chesed*.

For Chanukah, we packed food packages so the Chicago Mitzvah campaign can deliver them to people in hospitals and nursing homes since the people in hospitals are not able to have family visit them because of Covid-19. This helps the people in nursing homes feel connected and this makes all of us feel great for having an opportunity to be a part of this amazing *chesed* that the Chicago Mitzvah campaign organized.
